Testimonials

This was a fascinating and relevant course which was delivered to a very high standard. We were not bombarded by PowerPoints and came away with MANY practical suggestions which have the potential to make huge impacts in our school.

R White – Head Teacher

Probably the best CPD I have had. The passion, clarity and openness of Will approach made it a thoroughly engaging day which has challenged my thinking. A real strength was the different ways in which Will presented the material, video, data, image, discussion and debate. Thank you I am confident I will be a stronger teacher and leader as a result.

M Harvey - Deputy Headteacher

A truly inspirational speaker and so wonderful that we are trying to educate our teachers and support staff to change the way they educate our children. I have long believed that this form of education is the most important (building the esteem, confidence, independence and resilience) for young people.

A Gouldney - Governor

Super set of practical ideas which can be easily taken into the classroom, this has the potential to have high impact in a relatively short space of time.

Engaging, interesting, thought provoking and stimulating. Lovely relaxed and informal atmosphere and fruitful discussion

Dr Staines – Head Teacher

A very enjoyable course, everything was interesting informative and very relevant to my setting currently. Nicola was relatable, enthusiastic and extremely motivating. I feel confident in my knowledge and starting this journey in school. Thank you very much.

C McGinley

Very informative. I've done a lot of study/reading into growth mindset but was lacking in ideas in which to take it forward to allow other staff to commit to it take it forward and embed it into their teaching and learning. I feel that I now have a much greater understanding of how I can move this forward in a constructive honest way with the help of others in the school and in the community.

H Whitelaw

The training day was very motivational and helped me to identify where our school are in terms of developing a growth mindset culture. I am looking forward to planning how to develop this and will use the resources provided by Nicola to help engage all stake holders. I have a much better understanding of what growth mindset is and look forward to continuing this.
